

Potteries HASH

- Mismanagement Team

“On Sec”

Sending out those funny hash announcement leaflets every few months to make sure everyone gets to the right pub on the right day. Nearly got it wrong a couple of times

Fake Alias: Ann Williams

Hash Name/Handle: *Aberchintz*

Rather a convoluted hash name - one warm summer afternoon I decided to wear some cheerful summery shorts to the hash - you know the kind - flowery and colourful. Well some smart-alec decided they looked like chintz curtains and because I was born and raised in Aberystwyth I ended up with this catchy hash name!

First Hash: Well I *think* it was Wrinehill! But no photographic evidence has survived of me taking the customary virgin hasher's down-down so I am not quite sure! Anyway it feels like I've always been a hasher, although I'm actually quite a novice compared to the rest of the Mismanagement Team.

Didn't know these crazy Welsh hashers drank blood for a down-down?!

Ex-Hash Memberships: None

Hash Visits: None - sad eh?

Special Event Hashes: Each one is special to me (well except the first one because I can't remember a thing about it!)

Potteries H3 Member . . . since March 2005, I think!
